INTERIOR DESIGNER

DESIGNS HOMES THAT REFLECT THE PERFECT BALANCE OF BEAUTY AND FUNCTION

Stephanie Larsen

As an award-winning interior designer, Stephanie Larsen has built her career designing homes that reflect the perfect balance of beauty and function.

She has been recognized for her innovative approach and extensive product knowledge by her diverse clientele for over 20 years. Her style is sophisticated and timeless, with a personal signature that creates an instantly distinguishable look.

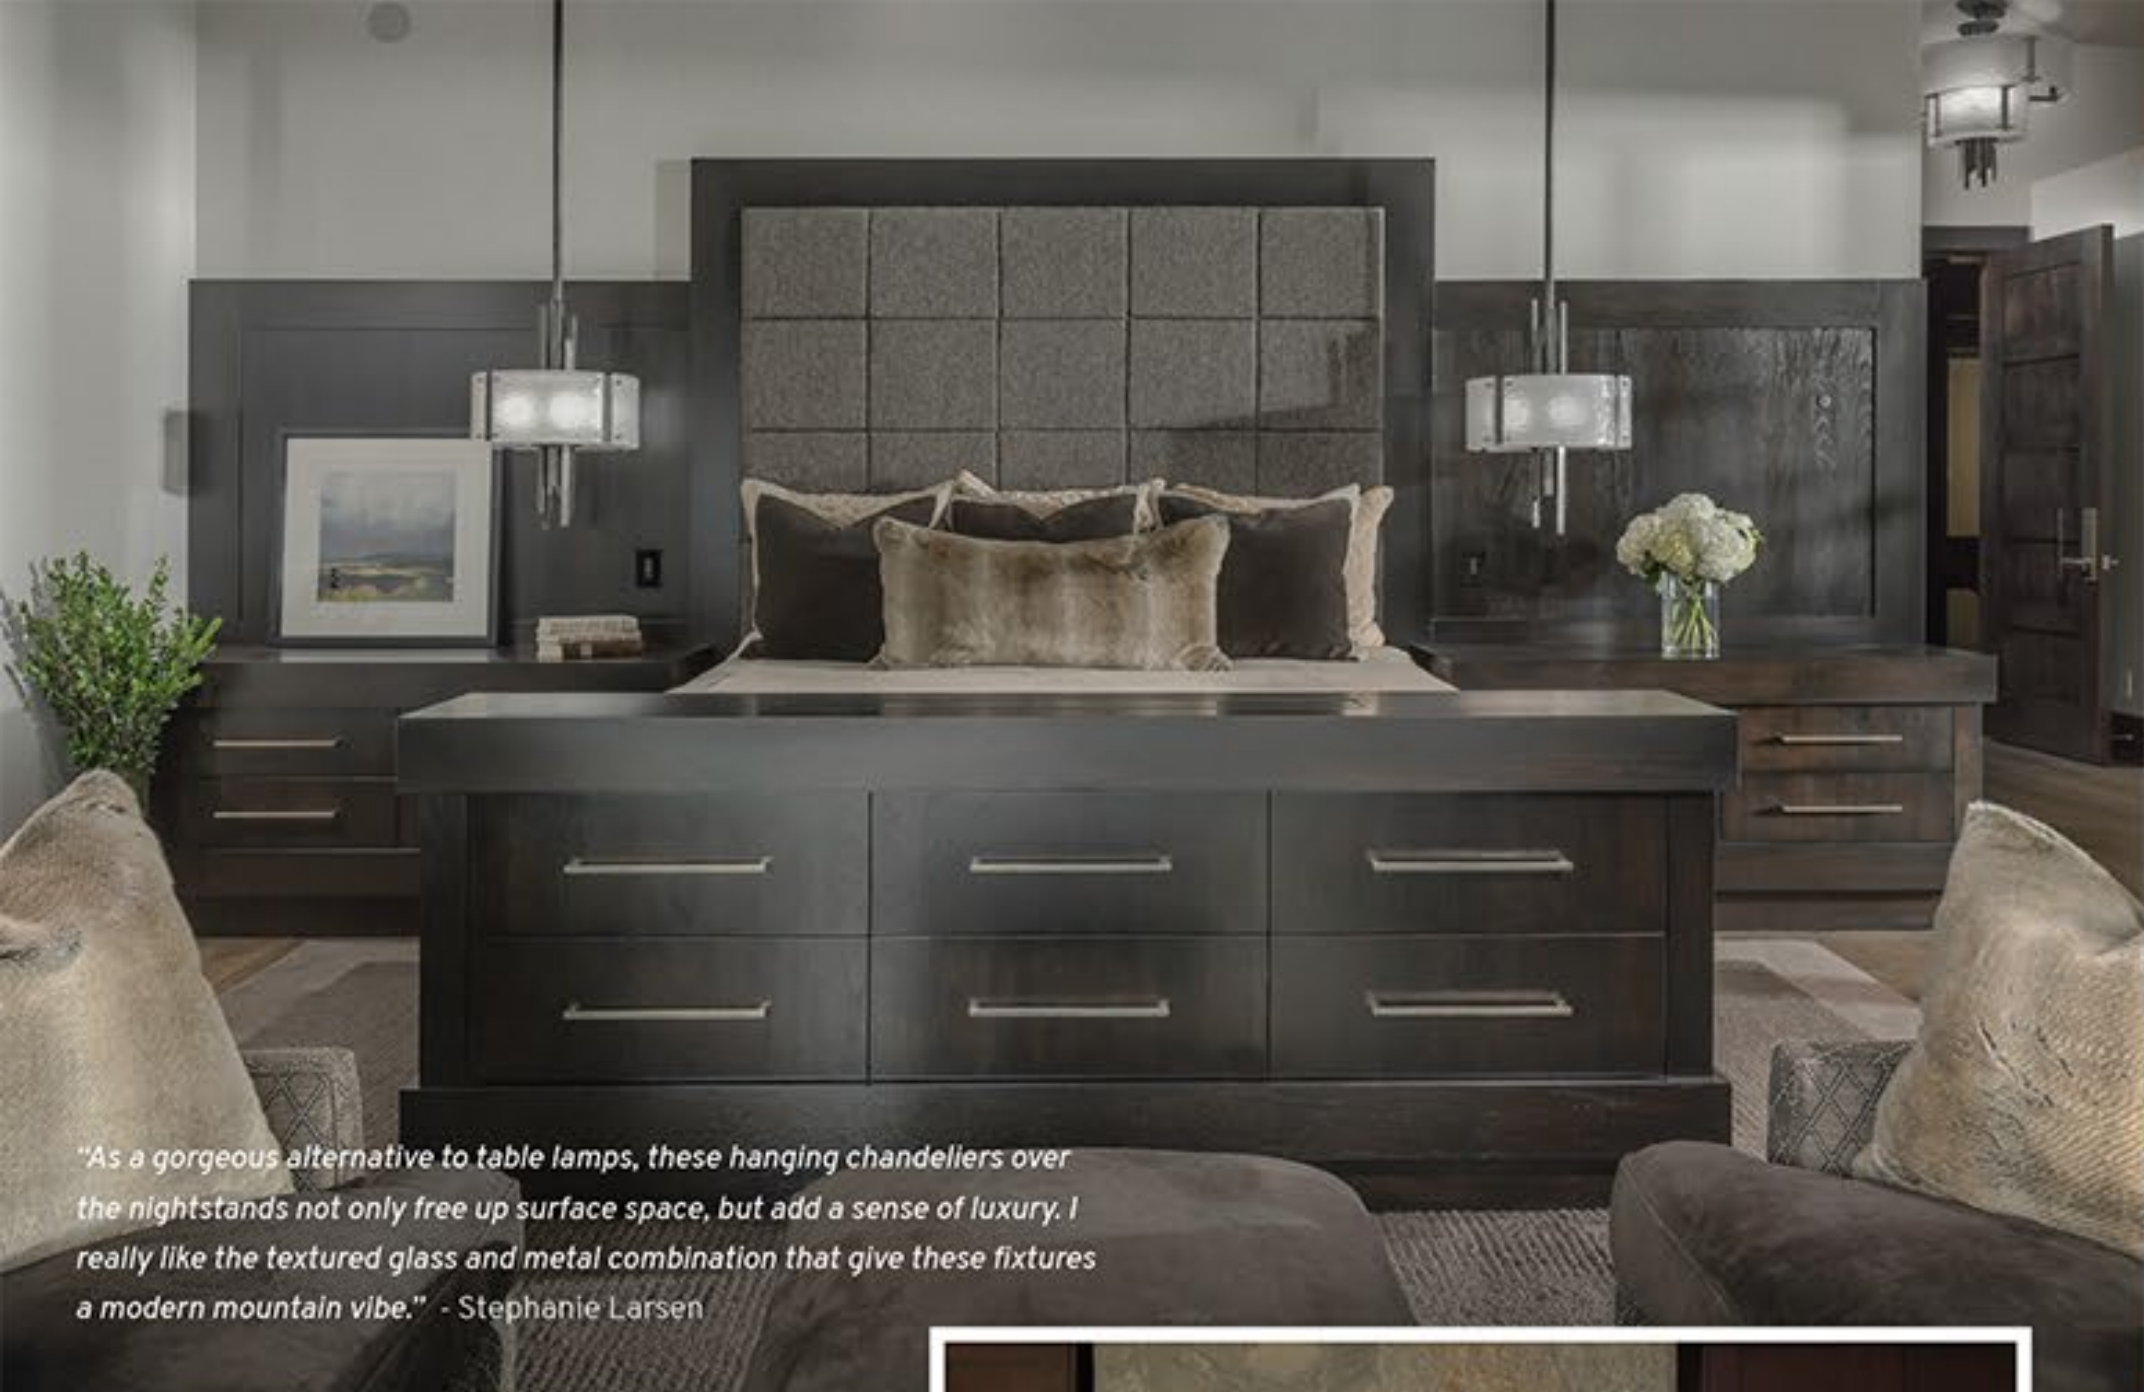

Stephanie's interiors feature an array of extraordinary materials and textures tempered with subtle color palettes and impeccable lighting. She continues to enhance her expertise via manufacturer workshops and affiliation with the American Society of Interior Designers (ASID).

"Good design is tailored for people's lives. We all love beautiful things—humans have a need for balance, beauty and harmony in our living spaces. But it must be comfortable and functional to remain well designed."

"I love the unique use of lighting in this outdoor dining area. Instead of using one fixture, try using multiple mini pendants for an elegant statement. These pendants are made of mesh and rated for outdoors, so they're not only beautiful but functional—and perfect for your modern home."

— Stephanie Larsen

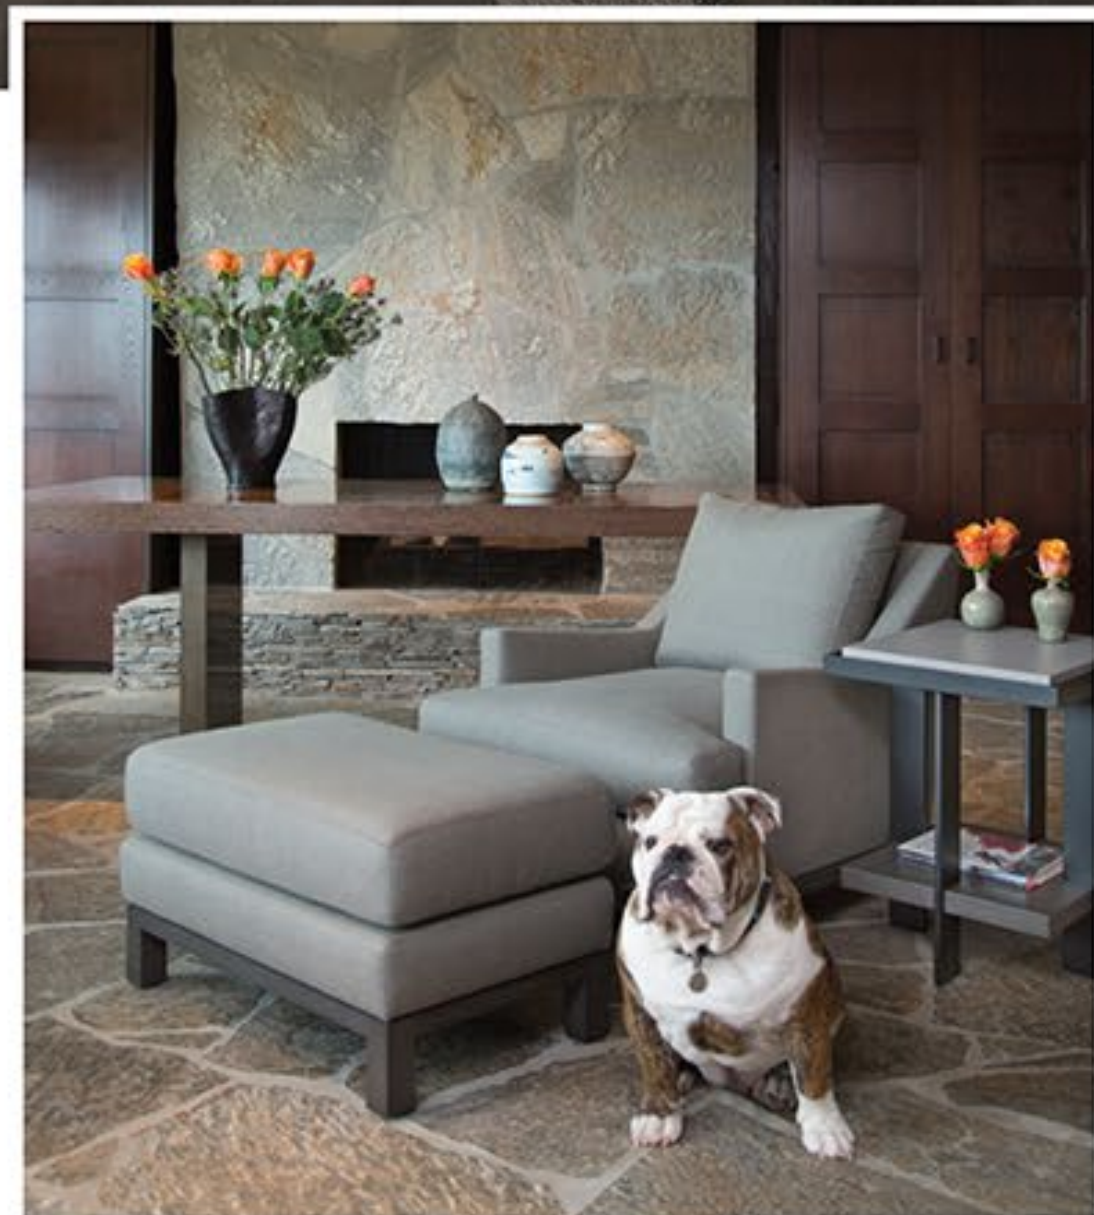

"As a gorgeous alternative to table lamps, these hanging chandeliers over the nightstands not only free up surface space, but add a sense of luxury. I really like the textured glass and metal combination that give these fixtures a modern mountain vibe." - Stephanie Larsen

Rift Cut Oak Au Lait
with Platinum Powder Coated Base & Accents
Custom Sizes and Finishes Available

"I love this chair and ottoman because of the organic nature of the piece. I love using this chair in an oak cerused finish with an organic linen fabric. These pieces compliment the desert organic feel perfectly."
